MATERA: AMONG THE ROCKS OF THE CITY OF STONE

In a nutshell

From the port in Bari, you'll head to **Matera**, a city that you don't simply visit: you've got to experience it. Wander among the **Sassi**, houses and churches carved into the rock, and inhabited for thousands of years, which are now a **UNESCO World Heritage site**. With a local guide, discover a truly timeless place, where history is everywhere and a surprise hides around every corner. And between one surprise and the next, don't forget to look up: you may spot a Lesser Kestrel, the true master of the house in Matera.

Main stops

- Matera's alleys and houses dug out of the limestone
- "Stones" and rock churches with frescoes

The programme

- From the port of Bari, you'll travel to **Matera** by bus. The city is truly astonishing. It is centuries old, with **roots in the Bronze Age**, enriched by a globally unique **artistic and cultural heritage**.
- Our **local guide** will accompany you on a tour through the narrow streets and past the houses dug out of the limestone rock. You'll visit the **Stones**, the two districts dug out of the Murgia stone which, together with over 100 rock churches, are considered a **UNESCO World Heritage Site**. Inhabited since prehistory up until the 1950s, this urban ecosystem has, over time, made expert use of natural resources like water, soil and energy. Mel Gibson found the right inspiration here to create the film set for the epic movie **The Passion of the Christ**.
- Don't be surprised if you find many wooden nests among the Stones. They are used to help with the reproduction of the **Lesser Kestrel**, a symbol of Matera that is in danger of extinction.
- The tour of the City of Stones includes a walk across rough ground.
- Slight changes may be made to itineraries and the length of excursions in order to safeguard your health and comply with regulations and the safety protocol.

ALBEROBELLO, THE VILLAGE OF TRULLI: A FAIRYTALE EXPERIENCE

In a nutshell

Alberobello, the village that looks like a fairytale...but it's all real. With a local guide, wander among the trulli - white houses with a unique shape that now have **UNESCO World Heritage status**. Stroll through the lively, colorful Rione Monti neighborhood and through Aia Piccola: it's still inhabited, but here time seems to have stood still. Every symbol on the roofs tells a story, every trullo is different to the next. And to end on a high? A typical tasting with a delicious glass of wine. You don't visit Alberobello: you savor it.

Main stops

- Trulli of Alberobello
- Rione Monti and Rione Aia Piccola
- Local food tasting

The programme

- You'll travel to **Alberobello** on our bus. Accompanied by a **local guide**, you'll visit the two urban areas with the greatest number of trulli: **Rione Monti** to the south, where there are roughly a thousand trulli used as craft workshops, and **Rione Aia Piccola**, with around 400 units that are actual homes belonging to local inhabitants.
- These buildings, which are typically white, cylindrical and topped with a dome, date from the **mid-14th century** and have been declared a **UNESCO World Heritage Site**. An edict of the Kingdom of Naples levied a tax on every new building. This is how the idea of the trulli was conceived; as they were built without mortar, they were considered to be temporary constructions and therefore not taxable.
- The whiteness of the walls indicates purity and the whitewashed symbols on the dome indicate the family's religion, while the shape of the overlapping stone pinnacles was the final touch that made your home unique and recognizable.
- We can't leave Alberobello without tasting some local products, accompanied by a glass of wine.
- Slight changes may be made to itineraries and the length of excursions in order to safeguard your health and comply with regulations and the safety protocol.

MATERA BY RICKSHAW: ROCKS, CAVES AND TIMELESS CHARM

In a nutshell

Hop into a **rickshaw** and experience **Matera** like never before! Whiz through the **Sassi** neighborhoods, along narrow streets and past cave dwellings and views like something straight out of a movie. In the districts of **Barisano** and **Caveoso**, which boast UNESCO World Heritage status, there's a surprise around every corner: frescoed churches, ancient stories and breathtaking views. Discover life in the cave houses, breathe in the atmosphere of a city sculpted from stone... and don't be surprised if you feel like you're walking through a movie set. Welcome to Matera!

Main stops

- Rickshaw ride through the old town and the Sassi neighborhoods.
- The Cave House a typical dwelling carved out of the rock.

The programme

Set off to conquer **Matera**, the oldest city in southern Italy: here, the houses are carved out of the rock, the churches are more like caves and time has taken a coffee break of a century or two. But don't be alarmed: here, you won't be walking - instead, whiz about **in a rickshaw** among the **Sassi**, in the **Barisano** and **Caveoso** neighborhoods - a UNESCO world heritage site sculpted from the rock, with the same patience as it takes to prepare a proper Sunday lunch.
You'll step inside the **Cave House** to discover what life was like when open space meant a single room for everyone and everything. And you'll find yourself looking at frescoed churches that would make certain city museums pale in comparison.
It'll be like stepping onto a film set, and it's no coincidence that **Mel Gibson** filmed ***The Passion of the Christ*** here. Except that here, you write the script: laughter, stories, anecdotes, and glimpses that will make you want to stay.
And before going back, you'll receive a small souvenir. Because you may not be able to take **Matera** home...but at least you can keep a little piece of it in your pocket.

- Make sure you have your driving license and some ID with you to ride the rickshaw.

ALL OF BARI: THE TREASURES OF THE OLD AND NEW CITY

In a nutshell

Discover **the Old and the New Town in Bari,** on a tour that will take you straight to the heart of the city! Set off from the majestic **Basilica of Saint Nicholas** and wander through the historic alleyways of the Bari Vecchia, the old town, from the church of Saint Gregory to the iconic Norman-Swabian Castle, with views that reveal centuries of history. Then, make your way through Bari Nuova, the city's newest neighborhood, with its elegant seafront, 1930s buildings and glimpses of the sea, before ending on a high with a tasting of typical products. An experience that combines history, atmosphere and flavors in every corner of the city.

Main stops

- The historic centre of Bari: Basilica of Saint Nicholas and Church of Saint Gregory
- Norman-Swabian Castle (external visit)
- The New City

The programme

- This tour takes us to the beautiful historical centre of Bari to visit its "treasures". We start with the **Basilica of Saint Nicholas** * built in the Apulian Romanesque style during the Norman domination * where the relics of the famous patron saint of the city are preserved, followed by a tour of the exterior of the **Church of Saint Gregory**. Built during the10th and 11th centuries, its interior is divided into three naves which lead to three apses.
- The tour proceeds with a visit of the exterior of the famous ***Castello Normanno-Svevo*** (**Norman-Swabian Castle**), a defensive bulwark of the old town that has come to symbolise the whole city. Built by the Normans in the 12th century, it was destroyed in 1156 and rebuilt at the behest of Frederick II between 1233 and 1240. The manor is one of the most interesting fortifications in the region, above all because of its strategic location. The castle, which is a fascinating example of a

medieval construction, has numerous extensions that were built in successive periods. Today it hosts occasional events and temporary exhibitions.

- After a pleasant tasting of typical products, we move to the città nuova (the new city). We then procced with a panoramic tour along the seafront promenade, Bari's pride and joy, which features numerous imposing buildings from the 1930s.
- The Adagio Tour was born from the collaboration between Costa Crociere Foundation and AISM, with the aim of offering land experiences at a slower pace and itineraries with fewer architectural barriers, designed for people with accessibility needs.
- The Adagio Tour version of this excursion is available on all ships.
- The places available for the "Adagio Tour" version are limited.
- If you use a wheelchair, the reservation of the "Adagio Tour" must necessarily be made through your cruise representative or through the contact channels of the Customer Center.
- The visit to the old city involves walking for approximately 2 hours.
- Dress code that is appropriate for the places of worship to be visited is recommended.
- This excursion is not recommended for guests with mobility problems.

SANTORINI: DELVE INTO THE PAST, SAVOR THE PRESENT

In a nutshell

Start off strong: visit **Akrotiri**, the Minoan Pompeii buried under ash, and hear from your guide about how advanced this civilization was in the Bronze Age. Then change pace in **Oia**, with its white houses perched on the caldera and obligatory selfies. Stop at **Mount Prophet Elias** for a photo opportunity that puts everything back into perspective. In **Exo Gonia** enjoy a local lunch: **Melitzanosalata, authentic Greek dishes** and **Assyrtiko wine** served in the traditional way. Finish up with **Fira**, where you can enjoy a mix of architecture and some free time to spend as you wish. Santorini: intense, multifaceted, unforgettable.

Main stops

- Akrotiri: the Minoan Pompeii
- Village of Oia and its view of the caldera
- Local lunch
- Mount of the Prophet Elijah, photo stop
- Fira, free time in the island's capital

The programme

- Go back in time to **Akrotiri**, a kind of Greek Pompeii, a Bronze Age Minoan settlement buried by volcanic ash after the eruption of Thera. **Our guide** will reveal all its secrets to you. Here's one example. The **sewer system** is complex and **advanced** for its time, with ceramic pipes embedded into the house walls that come up to the main road.
- Awaiting you next will be **Oia**, perched on the cliffs, with its white houses and blue domes. Set off with your smartphone fully charged as you'll risk running low on battery with all the selfies you'll take with the caldera in the background.
- Vines have been grown here since ancient times, in fact the 300-year-old vineyards are among the oldest in Europe. In the village of **Exo Gonia**, you'll taste **traditional Greek cuisine** with **melitzanosalata**, which isn't a tongue twister but an eggplant salad. There will of course be some **local wine**, **strictly** from the **Assyrtiko** vineyard.
- The rest of the tour will take you to **Fira**, with its architecture that combines Venetian and Cycladic styles. Here you'll have free time to spend at your leisure.

FAMILY AND FUN - THE HISTORY AND THE GAMES OF OLYMPIA

In a nutshell

Olympia, the archaeological gem of the Peloponnese, allows us to journey back in time and relive the magic of its historical origins, the dawning of sports ethics and its ancient culture. The kids will be able to

feel like athletes from ancient times and challenge each other in an event similar to the Olympic Games of Ancient Greece. A unique occasion for young and old alike!

Main stops

- Ancient Olympia: archaeological excavations
- Young partecipants at the tour re-enacting the ancient Olympic Games

The programme

- An expert guide awaits us at **Olympia** to take us on a discovery tour of the ancient city, where the remains of temples, statues, public buildings and the homes of priests and athletes bear witness to the pomp and ceremony of the past. Lying in a valley along the River Alfios in north-western Peloponnese, Olympia held the famous Olympic Games in honour of Zeus every four years. Here in 776 BC, a list of winners was drawn up for the first time, presumably the results of the very first Olympics in history.
- As we stroll around ancient Olympia amongst the **archaeological excavations**, it feels as though we can still hear the spectators shouting to encourage the athletes and breathe the festive atmosphere which accompanied those 5, very long days, during which the best athletes challenged each other in the various sports: wrestling matches, charriot and horse races, the pentathlon and *pankration* (a primitive form of boxing). Let's delve into the past and discover the little secrets of the competition which was first accessible only for male athletes of Greek origin and was later opened up to young Romans. Perhaps not everyone knows that women and slaves were banned from the town, the sanctuaries and the terraces, at the risk of a terrible death by being thrown from a nearby cliff.
- We will stop in the **ancient squares**, where traders and citizens once met to carry out their business.
- After our exciting tour of the excavations, the kids can feel like athletes from Ancient Greece and challenge one another in an **event similar to the ancient Olympic Games**, to relive the fun of the past. The winner will be crowned according to ancient tradition with an olive branch, the *kotinos*, in honour of Zeus, the father of the Gods.
- Before we end our excursion, all the children will be given a certificate of participation to remind them of this unforgettable day when they competed "not for the prize, but for the honour".
- We recommend that you book early because only a limited number of places are available.
- The excursion involves walking for about 1 hour and 30 minutes, it is therefore recommended to wear comfortable shoes and clothing.
- Large backpacks are not allowed inside the museum or the archaeological site.
- This excursion is not recommended for guests with mobility problems.

- Did you know that **San Servolo** was for many centuries the island where psychiatric patients were confined? Today it is the site of the Museo del Manicomio (mental hospital museum).
- **San Lazzaro degli Armeni**, on the other hand, is the site of a monastery still occupied by the **Armenian Mekhitarist Fathers**, who were persecuted by the Turks and left their homeland in the 18th century.
- The **Lido** separates the lagoon from the **open sea**: Venetians come to this island when they want some beach time. This is also one of the most dangerous access points from the sea, in the event of attack by an enemy fleet: it was for this very reason that the **Sant'Andrea Fortress** was built in the 16th century.
- You will travel past **Le Vignole** and **Sant'Erasmo**, Venice's two **kitchen garden islands** and head towards the **Arsenal**.
- After skirting the **island of Murano**, famous for its **glass blowing artistry**, the tour will end in the port, after sailing past St. Mark's Square.

- On the return journey the boat will stop at St. Mark's Square for those who wish to remain on their

own and make their way back to the ship later.

The elegance of this boat is also a result of the **expertise with which it is built**. Did you know that **eight different types of wood** are used to build one? Oak, fir, cherry, larch, lime, elm, walnut and mahogany are expertly fitted together in this masterpiece of naval engineering.* At the end of the trip, you can carry on wandering around the old town and make your own way back. **St. Mark's Square** and its covered arcades await you.

VENICE BY GONDOLA IS QUITE ANOTHER THING

In a nutshell

Let's face it: walking around **Venice** is always an experience but only a gondola can take you to the **most remote canals**, giving you a more **intimate** and **secret** view of the city. Are you ready? Comfortably seated, your gondolier standing at the stern, the silence and stillness of the water to keep you company. Another world.

So hop on to discover some of the most significant, hidden and intriguing canals of the historic lagoon city. Have you ever wondered how a gondola manages to go in a straight line despite being rowed from one side? An excellent question to ask your gondolier. Here's a hint: its shape is asymmetric.* You'll discover what a **Venetian greeting** is: it's exchanged by

gondoliers, strictly **in local dialect**, whenever they pass each other on the canals, joking and making fun of one another. * At the end, there is still time for a quick walk around **St. Mark's Square**, around the **Basilica** which houses the body of the Evangelist, the majestic arcades of the **Old and New Procuracies** and the **Correr Museum**, the **Clock Tower**, with the two Moors striking the hours, and the **Florian Café**.

Do you know what they're called? Here are a few names: the "**serventes**", the "**garzones**" and the "**porcellantes**". After so much tradition, the boat will head Cornoldi just few minutes away from **St. Mark's Square**, the only square in Venice "for real. Did you know that Napoleon Bonaparte was spellbound by it, too, and called it the "most beautiful drawing room in Europe". You'll fully understand when you see the iconic, and still intact, buildings of the ancient "La Serenissima": **St. Mark's Basilica**, the **Doge's Palace**, the **Campanile**, the **Museo Correr** and the **Clock Tower**.* It's worth **capturing them on camera** from all angles, so you can take home the best mementos of the city.
