JOURNEY THROUGH THE HISTORY OF DELFT AND ITS POTTERY PRODUCTION

In a nutshell

Main stops

- Short walk around Delft and its Golden Age atmosphere
- Guided tour of the Royal Delft, famous pottery factory

The programme

- Our tour starts with a short coach transfer to Delft
- Here, our guide awaits us for a **short walk** along the narrow alleyways of this enchanting city. Delft dates back to the 11th century and reached its maximum splendour during the 17th century, its **Golden Age**, when it became the seat of one of the Dutch East India Company chambers.
- In addition to being the birthplace of the painter Vermeer, who spent all his life here, and to being the city where William I of Orange, a prominent figure during the Eighty Years' War, was killed, Delft is famous for its tapestries and rich pottery production.
- At the end of our short walking tour, we have some free time to continue admiring the city's **17th-century charm**.
- We continue our excursion at the **De Porceleyne Fles** or **Royal Delft**, the most famous factory in the Netherlands manufacturing the famous Delft pottery which has been employing the same techniques since 1653, the year when it was founded, and distinguished itself from mass producers thanks to its **unique hand-crafted masterpieces**.
- A guided tour of the factory provides us with the chance to see the **artists at work** and learn more about the accurate and meticulous production process.
- Delft pottery, the term now used to indicate the entire Dutch pottery production, is characterised by the blue colour used as decoration and known as **Delft blue**.
- After visiting the factory, we have some free time available to purchase a few souvenirs at the **pottery shop**.
- We recommend that you book early because only a limited number of places are available.
- This excursion is reserved for guests who do not disembark at Ijmuiden.

- As we listen to his anecdotes and stories, we admire the surrounding **rural landscape** dotted with farms, **canals, fields of flowers and mills.** We cannot help but appreciate the spectacular scenery of such a typically Dutch plain where our mind flips through the photographs and paintings that posters, brochures, books and catalogues have contributed to etch in our brain!

- The **Dutch Cheese Museum** is a must as Alkmaar is the undisputed king of cheese production in the Netherlands, as is the **Beatles Museum**, one of the three official museums dedicated to the band in Europe, as well as the **National Beer Museum** which also offers a glass of beer at a reduced price at the end of the visit.
- As we stroll around the city streets, we can admire the **Stadhuis**, i.e. **Alkmaar's Town Hall** in a Gothic Revival Style, the **Vaagplein** or **Public Weigh-house Square**, famous for its cheese market and the **Vaag** or **Public Weigh-house**, a historic Renaissance building home to the Dutch Cheese Museum. THE WINDMILLS OF ZAAANSE SCHANS AND THE VILLAGE OF VOLENDAM

In a nutshell

Main stops

- Zaanse Schans
- Volendam with lunch

The programme

Holland is known throughout the world as the country of tulips, canals and...windmills! So this excursion which takes us to visit the authentic, rural Holland is a must, with its vast green plains and magnificent windmills that are reflected in the water.

The first destination on our itinerary is one of the most charming places in the Netherlands: Zaanse Schans; the name means "Fortification on the river Zaan" and refers to its original purpose during the 80 years' war, the revolt against Spanish rule, between the 16th and 17th centuries.

We enter a typical 18th-19th century village: vibrant and industrious, full of wooden windmills, barns, homes and museums, approximately 35 wooden buildings built in the typical Dutch architectural style and transported, piece by piece since 1961, to this magical open-air museum.

It is a unique experience, stepping into the past with all the images, scents and flavours of times gone by. We walk through the wonderful magical landscape, we visit some of the many windmills and historic buildings, and browse the artisan shops where the traditional clogs are made and the famous Dutch cheese is produced.

The next part of our itinerary takes us to the charming Catholic village of Volendam, a famous tourist attraction renowned for the traditional clothes that some of its residents still wear and for its

old fishing boats.

Before exploring this romantic fishing village, we have lunch in one of the inviting restaurants. After lunch, we can take advantage of the free time at our disposal in this picturesque place to walk along the quay lined with typical green wooden houses with red sloping roofs and admire the delightful marina and the docked boats being rocked by the delicate motion of the sea. Or we can stroll through the picturesque narrow streets, lined with typical little houses standing side by side, and cross the charming canals overlooked by small wooden bridges.

- Space is limited, so please reserve early.
- This excursion is reserved for guests who do not disembark in IJmuiden.

Le Havre **MONT SAINT-MICHEL**

In a nutshell

We explore Mont Saint-Michel, a "wonder of the West" and masterpiece of medieval religious architecture, as well as an exceptional vantage point for admiring the spectacle of the tides which have the biggest height difference in the whole of France.

Main stops

- Mont Saint-Michel
- Porte de Bavole, Grand Rue and village
- Walls and Benedictine abbey

The programme

- On this excursion we spend the whole day at **Mont Saint-Michel**, a rocky island surrounded by a magnificent bay known as the "wonder of the West" and a UNESCO World Heritage Site since 1979. Visits to the island are spectacular at any time of year thanks to its configuration, the rich history of the abbey and the beauty of its architecture. The little island, with a circumference of around 1 km, reaches a height of 80 metres and is connected to the bay via a paved road built in 1879 which is submerged at high tide. The area is known for its alternating tides, causing changes to the sandbars that surround the mount. Here the movement of the tides is the highest in the whole of France and the difference between high and low tide can be over 12 metres.
- We will begin our visit at the fortified entrance, the **Porte de Bavole** built by Gabriel du Puy in 1590, and continue along the **Grand Rue**, a steep road that comes to life in the summer with souvenir shops and restaurants and crosses the picturesque village towards the abbey, church and cloister.
- We will also visit the **walls** along a route that offers enchanting views of the bay and the abbey gardens.
- We arrive at the **Abbey** which dates back to the 8th century when the Archangel Michael appeared to Aubert, bishop of Avranches, telling him to build a church on the rock. The bishop founded an oratory on the island, then known as Mont Tombe. In the Carolingian period the oratory was replaced by an abbey and from that time until the 16th century, magnificent Romanesque and Gothic buildings were constructed. The abbey was well fortified and never conquered; having been used as a prison during the French Revolution and the Second Empire, in 1874 it was declared a Historic Monument and opened to the public all year round.
- Before returning to the port we will have free time to shop for souvenirs (with a wide range of copper, ceramic and porcelain objects to choose from) and local produce (such as butter biscuits and other typical products of Normandy). We can enjoy the atmosphere of this medieval village whose inhabitants carry on the island's traditions, continuing to make products for the delight of visitors and pilgrims coming to this unique site, just as they did over a thousand years ago.

THE WHOLE OF MARTINIQUE: WHERE THE ART OF RUM AND TROPICAL NATURE MEET

In a nutshell

Martinique enchants your taste buds and your eyes in one fell swoop! It starts with the legendary **Clément** plantation, where rum is a religion and tasting is a sacred ritual. And to finish, a green dive into the **Botanical Garden**: hidden trails, rainforest and tropical flowers that seem like they're painted. Here paradise has a thousand flavors and an aftertaste of rum.

Main stops

- Clément Plantation: manor house, the garden and systems of the old rum distillery, tasting session
- Garden with tropical plants

The programme

- We will depart from the port of Fort-de-France and head east passing close by to the **city of Le Lamentin**, one of the largest on the island and the main economic, industrial and commercial headquarters as well as being the home of the international airport of Martinique.
- We will take a panoramic road within the island to arrive at the historic **Clément plantation**, a genuine architectural and industrial heritage site on the island of Martinique. The Maison Clément is one of the main rum producers on Martinique and is famous for its aged rums.

OCEAN CRUISES

- Here, we will visit the **manor house**, exceptionally well preserved and decorated with ancient furniture, where the French President, Mitterand and the US President, G. W. Bush met in 1991.
- We will also visit a part of the **garden**, where we can see sugar cane up-close and the **systems of the former rum distillery**, which is no longer operational. In 2005, the former distillery was set up as a Rum Information Centre, where owing to a high walkway which passes over the two sections of the distillery, visitors can discover the machinery needed to make cultivated rum. After the visit, we will enjoy **rum tasting**.
- However the most special surprise which awaits us on our tour, is the **garden of Balata**, a botanical park within the rainforest, which includes pathways which wind around trees and tropical flowers, and which features over one thousand plant species.
- We return to the port at the end of the visit.

Please note: English guides available in limited number, the tour could be guided in French. Space is limited, so please book early. Guests are advised to wear suitable clothing for entrance into holy places.
