- Our kayak will follow the outline of the basin, which curves between two tower-shaped mountains. It is a magical and majestic place at any time of the year.

**THE HERDAL VALLEY, ALPINE FARM AND TASTING OF LOCAL SPECIALITIES**

A perfect excursion for those wishing to combine the splendid countryside of the fjord and the discovery of local traditions and lifestyle, tasting typical products of the alpine farm located at the heart of the fjord: an unforgettable journey.

**What we will see**

- Ørnevegen: views of the fjord and the Knivsflå alpine farm

- Summer farm of Herdalssetra: unspoilt nature, grazing animals and local specialities
- Heregga Peak: wood houses with turf roofs

From here, we can enjoy the **spectacular scenery of the fjord and the Knivsflå alpine farm**. This is the steepest section of road out of Geiranger and is the only means of communication with the outside world during winter!
- From here, it is possible to get a glance of the **Seven Sisters, a group of 7 waterfalls** which, together with the **Suitor Waterfall** (located opposite on the other side), provide one of the most beautiful natural spectacles of all of the Norwegian fjords... as well as being the subject of a fascinating legend.
- We reach the **village of Eidsdal** in Norddalsfjord and follow the coast up to the **village of Norddal**.
- Leaving the fjord, we head into the valley until we arrive at the **summer farm of Herdalssetra**. Operational for over 300 years, it is formed of 30 old houses and for hundreds of years, has housed goats and cows, lambs and horses which are free to graze. Here, old traditions are more alive than ever. Various types of white and brown goat's cheeses are produced here, as well as other mountain delicacies typical of the Norwegian fjords. These form the basis of a special **tasting session**, which is sure to delight the palate.
- The dwellings we will see are small **wood houses with turf roofs**, purposely built under the large **Heregga Peak**, which protects them from the frequent avalanches .
- On the journey to the valley, we can admire the **Herdøla River**, which receives the waters from numerous waterfalls.
- We arrive in Eidsdal then return to Geiranger via, once again, Ørnevegen, the 'Eagle Road'.

- Romsdal Museum
- Molde Cathedral
- Varden viewpoint

**What we will do**

- We leave the port and head for the centre of **Molde**, administrative centre of the County of Romsdal. The city is located on the shores of the Romsdal fjord, surrounded by hills that provide a backdrop of 222 peaks that are covered in snow almost all the year round. Molde is also known as the *City of Roses*, thanks to the fragrant rose nurseries that benefit from the mild climate and fertile soil of the sun-drenched slopes surrounding the city.
- Our tour then takes us to the **Romsdal Museum**, a large open-air folk museum complex comprising 50 traditional buildings that not only recount the history of Norway, from the Vikings to the present day, but also provide examples of the architecture, traditions and the way of life of the local population. The most interesting exhibit is *Bygata* street, a reconstruction of a 20th-century street that highlights the evolution of houses in this part of Norway.

#### **What we will see**

- Molde
- Varden viewpoint
- Tasting of local specialities
- Romsdal Museum
- Reknes Hill
- House of Culture

#### **What we will do**

- Our excursion takes us to **Molde**, administrative centre of the county of Romsdal. The city is located on the shores of the Romsdal fjord, surrounded by hills that provide a backdrop of 222 peaks that are covered in snow almost all the year round. Molde is also known as the *City of Roses*, thanks to the fragrant rose nurseries that benefit from the mild climate and fertile soil of the sun-drenched slopes surrounding the city.
- We climb to 400 m above sea level to the **Varden viewpoint**, where the belvedere offers wonderful views over the Romsdalsfjord, the myriad of little islands that lie scattered in front of the city and the mountains on the other side of the fjord.
- Next on our itinerary is Molde itself, a city that is full of shops. The city owes its rather modern appearance to its destruction during the Second World War, after which it was largely rebuilt.
- We cut through a residential area, featuring typical, wooden, family homes, almost all of which are surrounded by well-tended gardens.
- We stop for a snack and a rest and we do so in the best way possible, by sampling a **local speciality**, **svele**, a traditional Norwegian variety of pancake.

- Bjørnsund Islands
- Frænfjord

**What we will do**

- Our excursion takes us to **Molde**, administrative centre of the county of Romsdal. The city is located on the shores of the Romsdal fjord, surrounded by hills that provide a backdrop of 222 peaks that are covered in snow almost all the year round. Molde is also known as the *City of Roses*, thanks to the fragrant rose nurseries that benefit from the mild climate and fertile soil of the sun-drenched slopes surrounding the city. The city still has the same air of calm and tranquillity that convinced Ibsen to make it his home.
- We climb to 400 m above sea level to the **Varden viewpoint**, where the belvedere offers wonderful views over the Romsdalsfjord, the myriad of little islands that lie scattered in front of the city and the mountains on the other side of the fjord.
- Our coach then takes us through some of the area's best ski resorts, before descending to the village of Eide, overlooking the **Kornstadfjord**.
- From here we take the spectacular **Atlantic Road**, an engineering marvel that links islands and reefs via a series of bridges. In 2005, it was declared the Norwegian Construction of the Century, while the stunning stretch of coast it covers has earned it the status of National Tourist Route.
- We head towards **Hustadvika**, a stretch of water that can be spectacular to look at when rough, but which is not much loved by sailors. It is full of underwater reefs and little islands and, when the weather is fine, it is not uncommon to spot seals and

whales swimming there.

- A little further along, we have a photo stop in the delightful fishing village of **Bud**, overlooking the ocean with views of the **Bjørnsund islands**, a group of islands that were once home to a vibrant, flourishing fishing community, but which are now only a summer vacation retreat.
- We head back to Molde, travelling up and down beautiful hillsides around another delightful natural inlet, the **Frænfjord**.

**THE MARVELS OF THE ÅKRAFJORDEN**

Description

This excursion in the Åkrafjorden offers a combination of natural beauty and art, with the Langfoss waterfall – the fifth-highest in Norway – steep mountain slopes, rich pastures, the still, silent fjords and famous artist Unni Marie.

What we will see

- Scenic tour and Åkrafjorden
- Haugesund, Norway's prettiest city, and residential districts
- The Langfoss waterfall and the blue waters of the fjord
- Eljarvik Farm

- Ølen and the Unni Marie Rosemaling Centre, unique artworks and an enchanting garden

**What we will do**

- We set off on board our coach for a scenic tour that, over about an hour and a half, leads us towards the Åkrafjorden.
- First, we cut through Haugesund, passing the famous city hall – considered the most handsome in all of Norway – and a number of residential districts before heading into open country.
- Our first stop is a truly magical place, the Langfoss waterfall. With a total drop of 612 m, it is the fifth-highest waterfall in Norway, and was included in CNN's list of the ten most beautiful waterfalls in the world, a judgement echoed in many other quarters.
- A boat will be waiting to whisk us across the blue waters of the fjord to the base of this natural wonder which, according to legend, has mysterious powers that can boost fertility.
- We disembark, then, at Eljarvik Farm – where we risk remaining spellbound by the breathtaking view of the falls – and enjoy a delicious lunch before boarding our coach once again.
- Our next stop is Ølen where we make a brief visit to Unni Marie Rosemaling, a one-of-a-kind structure that houses a tourist information office, a small shop and a workshop.
- Here, we find something rather unique waiting for us: Unni Marie is an internationally renowned artist who specialises in rosemaling (painting images of roses), a traditional art form in Norway that is on display both on the outside of the building and in the shop, where numerous items are available for purchase.
- We also visit the charming garden at the back of the house, which is tended by Unni Marie herself who, it turns out, also has green fingers.
- Our excursion has nearly reached its end, but it has one more treat in store, as we enjoy a little free time and a sightseeing tour of Haugesund.

**VISIT TO THE ARQUEBUS WAR MUSEUM**

**Description**

A unique excursion through history and the present day, ideal for those who love the mountains but want to see more than just the

countryside: from the most spectacular landscapes the Norwegian fjords have to offer to a museum dedicated to the Second World War.

#### What we will see

- The city of Haugesund and the pristine surrounding countryside
- The Arquebus War Museum
- The Steinsfjellet viewpoint
- The Haraldshaugen national monument

#### What we will do

- This scenic excursion takes us on a journey exploring the area east of the coastal town of **Haugesund**. Along with its spectacular natural landscape, Haugesund boasts a unique and fascinating history: not only was the Statue of Liberty made using copper from one of its mines, but it can also claim to be the original “fatherland” of Marilyn Monroe, whose grandfather worked locally as a baker before emigrating to the United States. Not bad for a town that was only recognised as a separate municipality in 1854!
- The highlight of our time in Haugesund is a visit to the **Arquebus War Museum** (Arquebus Krigshistorisk Museum). Located in the inner stretch of the Førresfjord, this museum brings to life various events associated with the Second World War, from the everyday lives of local people, the merchant navy’s contribution to the war effort, defence operations and the 1940 invasion, the enemy positions along the coast, the liberation, the fall of Berlin in 1945, and the allied victory in Europe. During our visit, we learn all sorts of fascinating details. For instance, the word Arquebus comes from the code name adopted by a local resistance fighter for communications made using a clandestine radio transmitter. The museum is the largest in Norway, with over 2,000 m of exhibit space housed in an old farm building. The exhibits include manikins dressed in genuine uniforms and historical costumes.
- Following our visit to the museum, we make our way to the **Steinsfjellet viewpoint** which, at 227 metres above sea level, and with breathtaking views of Haugesund and the surrounding area, is a favourite spot among locals for walks and trips to the country.
- The next stop is at the **Haraldshaugen**, a national monument erected in 1872 to commemorate the thousand-year anniversary of the Battle of Håfrsfjord, which was fought and won by King Harald Hårfagre (Harald Fairhair) at Håfrsfjord near Stavanger in 872, leading to the unification of Norway. Harald Hårfagre established his court at Avaldsnes, on the nearby island of Karmøy, while the monument stands at a location believed to be the site of his burial, about 3 km north of the centre of Haugesund.
- We are bound by the timetable set by the local operator, which is communicated to the ship the day prior to the excursion depending on the different language options required. As such, we are unable to make changes to the excursion timetable.

**What we will see**

- Fjärås Bräcka glacial formation, Iron Age cemetery with ancient gravestones
- Elizabethan Tjolöholm castle: Tudor façade and Art Nouveau interiors
- Free time to visit the garden and exterior

**What we will do**

- We start our tour by reaching **Fjärås Bräcka**, a 4 km-long ridge formed as the ice retreated between 12,000 and 13,000 years ago and now one of the country's most impressive and important **glacial formations**.
- Fjärås Bräcka is famous for its **Iron Age cemetery** located on the edge of its ridge featuring **hundreds of ancient gravestones**. From here we can also admire amazing views of the surrounding scenery.

- Our itinerary continues to a magnificent peninsula in the Kungsbacka fjord, location of the marvellous **Tjolöholm castle**, built between 1898 and 1904 by James Fredrik and Blanche Dickson in a perfect **Elizabethan style** on a design by the architect Lars Israel Wahlman. Before entering the castle, our guide provides us with some general information on the building and its fascinating architecture.
- While the **façade** presents typical 16th-century and **Tudor** elements, the **interior** is a splendid example of **Art Nouveau** and William Morris style.
- Despite the many fireplaces, the building is heated by a hot air pipe system. The three bathrooms were, at the time, equipped with showers and sunken bathtubs and the property had its own power generator, making the project very modern.
- After visiting the interior of the castle and before returning to the ship, we have some **free time** available to explore and admire the **amazing garden and exterior**.

**CURIOSITIES AND MARVELS OF THE WESTERN COAST**

**What we will see**

- City of Kungälv and Västra Gatan with typical colourful wooden houses
- Tjörnbron bridge to Tjörn island: numerous fishing communities
- Klädesholmen fishing village: herring production
- Skärhamn village and Nordic Watercolour Museum

**What we will do**

- We start our tour along the coast heading north towards the **city of Kungälv**, located on the estuary of the river Göta and made famous by the historical peace meeting between the three Swedish kings in 1100.
- We cross this enchanting city along **Västra Gatan**, a characteristic road flanked by **typical colourful wooden houses** and listen to the narration illustrating the history of these places, of their kings and various battles.
- The itinerary then continues north-west towards the North Sea. A short coach transfer takes us across the **Tjörnbron bridge** connecting the **island of Tjörn** with the mainland and where many **fishing communities** live.

- The first stop on our tour takes us to the picturesque **fishing village of Klädesholmen**, famous all over Sweden for its **herring production** which started off stored in containers and small barrels towards the end of the 1800s.
- Nowadays, almost half of the pickled herrings in Sweden comes from Klädesholmen, where there is also a small herring museum. The village is made up of two small islands and it is a truly enchanting place with its wooden red and white painted houses, a harbour and many fishing boats.
- We continue across this lovely island as far as another characteristic **fishing village** nestled among the rocks and directly overlooking the North Sea: **Skärhamn**. With its 3000 inhabitants, it is the main settlement on the island. The walk along the pier towards the commercial harbour is truly wonderful.
- The village of Skärhamn is also famous for its **Nordic Watercolour Museum** which is built on stilts among the rocks smoothed by the water and characterised by large windows overlooking the surrounding sea. Inside, the permanent collection and temporary exhibitions are dedicated to international watercolour artists and it also features a research and teaching centre for watercolour techniques.

#### What we will do

- We begin our sightseeing tour of Göteborg by admiring its most famous sights such as the **Opera House**, a majestic Post-Modern building overlooking the water, the **Chalmers University of Technology** with its 13 departments founded in 1829 by William Chalmers, director of the Swedish East India Company, the **Gustav Adolf square**, hub of the public life, seat of the Town Hall and named after the 17th-century Swedish king and great leader who founded Göteborg, and the **Avenyn boulevard**, the shopping street brimming with life and boasting many pubs, restaurants and fashionable shops and filled with street artists entertaining the tourists as well as the locals.
- Our guide also shows us other more hidden sights but just as interesting and true symbols of the city.
- Among them, we see the **Feskekörka**, whose name in Swedish means “fish church” and which derives from the fact that the building looks like a Gothic Revival church. It is in fact an **indoor fish market** overlooking the canal and looks just like a church. It also features many **restaurants and delis** where we can savour the typical products of the western coast (lobsters, prawns, oysters and shrimp).

- The next stop takes us to the **Skansen Kronan fortress**, surrounded by 23 cannons and built during the second half of the 17th century with a defensive function against the Danish attack from the south. The fortress is now a private facility used for congresses as well as for events and weddings.
- After visiting the fortress, we **stop briefly for photos** near the **Röda Sten art gallery** (meaning “red stone” in Swedish), a famous centre for contemporary art located in an old industrial district under the Älvsborg bridge. Its name derives from the nearby red varnished stones and the gallery is divided into four levels hosting temporary exhibitions and events.
- We then reach the famous **Götaplatsen**, inaugurated in 1923 on the occasion of an international fair to celebrate the 300th anniversary of the founding of the city. At the centre of the square, which is the city's cultural hub, we admire the majestic **bronze statue of Poseidon** by Carl Milles.
- We then have some **free time for lunch** and to discover the wide range of **products local shops** have to offer.
- One last stop awaits us after our lunch and shopping break and before returning to the ship: a stroll in the company of our guide around the **Haga district**, renowned for its **picturesque houses made partly of brick and partly of wood, its 19th-century atmosphere and its many cafés**. It was born as a suburb inhabited by the working class but it evolved over the years to become one of the most popular destinations with both tourists and locals, especially after many buildings were refurbished or rebuilt during the 1980s.

The incredible experience of a journey along the Bad Doberan coast to Kühlungsborn, within both narrow and fascinating carriages of the Molli steam train.

**What we will see**

- Warnemünde: panoramic tour of the city and the surrounding countryside
- Bad Doberan: Cathedral, station, Molli steam train

**What we will do**

- Within this very small city, we will admire the beautiful red-brick **Cathedral** of 1368, one of the best examples of Gothic architecture within northern Germany. The Cathedral also presents traces of evident influence of the dominating Gothic style, elements which feature in other Hanseatic churches and features typical of the buildings of the monks of Zisterzienser during the period.
- Once we have visited the Cathedral, we will take the coach to the **station with the extremely narrow railway gauges to board the 'Molli' train**. On-board the appealing **little steam train** we will pass through a magical landscape, amongst forests and small villages, until we reach **Kühlungsborn**, which since 1880 has been one of the most famous beach resorts in Germany.
- Once we arrive, we will have free time to take a walk on the **beach**, wet our feet in the fresh waters of the Baltic or simply relax seated in the typical **Strandkorb** special wooden beach chairs covered with a wicker layer used on Nordic beaches to protect from the sun but sometimes also the wind and rain.
- At the end of this pleasant excursion, we will go to one of the hotels along the coast for a coffee and a delicious slice of cake.
