**EXCURSION TO THE SUGARLOAF MOUNTAIN AND VISIT TO RIO DE JANEIRO’S BOTANICAL GARDEN**

**Description**
This excursion is ideal for those wishing to discover the most uncontaminated side of Rio de Janeiro as, in addition to enjoying the most beautiful beaches of the city, we can take the cable car up to the Sugarloaf Mountain and relax in a true oasis of local flora and fauna – the Botanical Garden.

**What we will see**
- Flamengo park
- Botafogo beach
- Praia Vermelha
- Sugarloaf Mountain
- Urca hill
- Copacabana and Ipanema beaches
- Rio de Janeiro botanical garden
- Tropical flora and fauna

**What we will do**
- We leave the port behind us and begin exploring the city. The route gives us the opportunity of admiring Flamengo Park and Botafogo beach before reaching Praia Vermelha in the Urca neighbourhood.
- A funicular cable ride takes us to the Sugarloaf Mountain, the most famous in Rio de Janeiro and maybe among the most famous in the world for its beauty and the spectacular view that can be enjoyed from the top.
- Our climb is divided into two stages. After the first, we reach Urca hill with its gardens and panoramic terraces; after the second, we can enjoy a spectacular view over the city, its beaches, Guanabara bay and the Corcovado on the horizon.
- Our tour continues after admiring this breathtaking view. We go back to the coach and continue along the beaches of Copacabana and Ipanema towards the Botanical Garden. Rio de Janeiro’s Botanical Garden is located between the Tijuca Forest and the Rodrigo de Freitas lagoon. It opened in 1808 as a royal orchard and is nowadays a global example of tropical flora and fauna. Surrounded by the chaotic city, this place is a true oasis where birds sing to the sound of waterfalls gushing and the light crackling of bamboo in the background. Accompanied by expert guides, we stroll along the paths and admire imperial palm trees, mango trees and Victoria water lilies. We let ourselves be enchanted by the rose garden, carnivorous plants, orchids and bromelias and discover the 140 species of birds – most of which domesticated – such as parakeets, toucans, highland guans and slaty-breasted rails. Among the other animal species living in the park, there are howler monkeys and marmosets.
- At the end of this wonderful day, we return to the port by coach.

Rio de Janeiro

RIO DE JANEIRO BETWEEN TRADITION AND MODERNITY

Description
Rio de Janeiro is a vast metropolis with a thousand faces, where the breath of modernity meets enchanting ambiences and centuries old traditions. We explore futuristic monuments and then dive into the bohemian quarter of Santa Teresa, home to artists and intellectuals, where a typical Brazilian lunch completes our journey into local culture.

What we will see
- Rio-Niterói Bridge
- Niterói Contemporary Art Museum (external view)
- Selarón Steps
- Santa Teresa district
- Stop at a traditional bar and a typical lunch
- Parque das Ruínas

What we will do
- We will start our tour by crossing the 14 km Rio-Niterói bridge which connects the two sides of Guanabara Bay and that has been for many years the longest in the world.
- We will see the stunning Museum of Contemporary Art in Niteroi, one of the masterpieces of Brazilian architect Oscar Niemeyer, perched on a promontory overlooking the sea. From here, the view over the city of Rio de Janeiro is simply breathtaking.
- We then return to Rio de Janeiro and head to the Lapa district, the heart of the city’s nightlife, to visit the Selarón staircase with its 215 steps that the Chilean artist Jorge Selarón tiled with multi-coloured mosaics from all around the world.
- Our next stop is the district of Santa Teresa, an oasis of calm after the chaos of the metropolis, with its bohemian atmosphere, cobbled streets lined with attractive architectural works and the historic tram, the famous bondinho, rattling between the houses, up the slopes of the hill on which the district is situated.
- Then we stop off at a traditional bar in Santa Teresa, a meeting place for local artists seduced by the charm of a district that is
unsurprisingly home to numerous art galleries.

- Here we can enjoy a **typical Brazilian lunch** a blend of flavours with influences from the colonial era and other countries, brought to Brazil by immigrants, whose traces we can still see today in the local tradition.
- In the afternoon we visit the **Parque das Ruínas**, where we find the remains of an old brick house, once the residence of a wealthy Brazilian heiress and patron of the arts, where artists and intellectuals used to gather during the Belle Époque. From its height we can enjoy a magnificent scenic view of the river.
- We will then return to the ship, having imbibed a little taste of the country’s soul for ourselves.
- The excursion is not recommended for guests with walking difficulties or in wheelchairs.
- Space is limited, so be sure to book early.

PETRÓPOLIS, BRAZIL’S IMPERIAL CITY

Description
Petrópolis, Brazil’s imperial city, does not only attract visitors for its climate and pleasant surroundings, but also for the cultural and historic sights to be discovered during this excursion such as the former Summer Palace of the second Brazilian Emperor, now a museum on the history of the imperial era.

What we will see
- Quitandinha
- Catedral São Pedro de Alcântara
- Imperial Museum
- Santos-Dumont Museum

What we will do
- We leave the port behind us and head to Petrópolis, Brazil’s imperial city 65 km from Rio de Janeiro. Nestled among the wooded hills of Serra dos Órgãos in the valley of the rivers Quitandinha and Piabanha, Petrópolis is now a renowned tourist destination.
- We stop to see Quitandinha, an important building which is now a congress centre but which used to be the largest casino in Latin America. It was active for only two years as Brazil banned gambling in 1946.
We then stop to see the São Pedro de Alcântara cathedral, a French Neo-Gothic place of worship dating back to 1939. The building is 70 metres high and houses the Imperial Mausoleum, which contains the tombs of Dom Pedro II, his wife Dona Teresa Cristina, their daughter Princess Isabel and her husband the Count of Eu.

Afterwards, we reach the Imperial Museum, the main sight in Petrópolis. Once the summer residence of the ruling family, the museum now displays the personal belongings of Emperor Dom Pedro II and his family including paintings, carpets and the golden imperial crown, decorated with 639 diamonds and weighing 1.72 kg, made in 1841 for the Emperor's coronation. We also see the carriage hall and the imperial locomotive.

We then stop for lunch and continue with a visit of another interesting museum, the Santos-Dumont museum. The building, also known as ‘A Encantada’, was designed by scientist and inventor Santos-Dumont, the father of aviation. It was erected in 1918 and, after being the scientist’s private residence, it was turned into a museum in 1946. Prestigious furniture and decorative objects are on display.

- Not available on Mondays.
- We recommend that you book early because only a limited number of places are available.
- Slippers must be worn inside the Imperial Museum.

TOUR OF CORCOVADO AND COPACABANA

Description

Visiting one of the seven natural wonders of the world should be reason enough to choose this excursion. In addition to climbing to the top of Corcovado mountain and admiring the statue of Christ the Redeemer, though, the tour also takes us to another of the symbols of Rio, the Copacabana neighbourhood with its world-famous beach.

What we will see

- Laranjeiras
- Cosme Velho railway
- Corcovado
- Statue of Christ the Redeemer
- Tijuca forest
- Copacabana: beach, calçadão

What we will do

- We leave the port passing through the Laranjeiras residential neighbourhood to reach the Cosme Velho railway station, the shortest railway in the world measuring 3824 metres long inaugurated by Dom Pedro on October 9th, 1884.
The train takes us to the top of Corcovado mountain, one of Rio de Janeiro’s two peaks, famous in Brazil and all over the world for its statue of Christ the Redeemer and part of the Tijuca national park.

The statue, the most important symbol of Rio, weighs 1145 tons, is made of stone and cement and is 30 metres high. It is located on an 8-metre-high pedestal on top of a mountain at 709 metres above-sea-level and offers breathtaking views. Lifts and escalators were installed in 2003 and, in 2007, the statue was proclaimed one of the New 7 Wonders of the World.

We take the train down through the Tijuca forest, where we can admire the fantastic vegetation of the largest urban natural reserve in the world.

But our fantastic excursion is not over yet – a coach takes us to the Copacabana neighbourhood, located in the south of the city. It is considered one of the most famous in Brazil also thanks to its crescent-shaped beach, the so-called ‘Princesinha do Mar’ (Little princess of the sea) mentioned in dozens of songs until the 1960s. During the weekend, the beach is filled with locals and visitors from all over the world, who use the neighbourhood’s excellent transport system to come and take a dip or sunbathe. We may also have some free time to take a dip ourselves. Last but not least, the calçadão, the pavement whose mosaic creates amazing black and white waves, is perfect for a jog or a bike ride.

The transfer to Corcovado mountain takes approximately 20 minutes.

Rio de Janeiro

TO SUGARLOAF MOUNTAIN BY CABLE CAR AND RELAXING AT COPACABANA

Description

The views of Rio de Janeiro, with its urban areas dotted by green hills and surrounded by the blue sea, are among the most picturesque in the world. We will appreciate them in all their glory with a fun excursion by cable car, after which we will explore one of the city’s greatest attractions: the fabulous Copacabana beach.
What we will see

- Sightseeing tour of the city centre
- Urca Hill
- Sugarloaf Mountain
- Free time at Copacabana

What we will do

- We will leave the harbour behind us to enjoy a **sightseeing tour of the city centre**. The route takes us past Flamengo Park and Botafogo beach, before reaching Praia Vermelha in the Urca district.
- From here, the cable car transports us to **Sugarloaf Mountain**, the most famous mountain in Rio de Janeiro, and perhaps the best known in the world for its beauty and the magnificent view it offers to its visitors.
- Our ride on the funicular railway is divided into two sections: after the first we arrive at the **Urca Hill**, full of gardens and panoramic balconies; after the second we enjoy a spectacular view of the city, with its beaches, Guanabara Bay, and Corcovado mountain on the horizon.
- After admiring the breathtaking view we return to the coach and continue to **Copacabana**, where we have free time to do what we like in this famous location.
- One of the city’s most interesting districts, Copacabana is a **fascinating blend of ancient and modern**, with its narrow streets and old-fashioned shops inland, on which stand the luxury hotels lined up along the beach.
- The beach, bordered by a pavement famous for its black and white wave shaped ornamental motifs, is a **paradise for swimmers** with its 4 km spectacular crescent of white sand lapped by the ocean, always crowded with tourists and residents, inevitably seduced by its charm.
- In the event of bad weather, there may be less sightseeing.
- If there are lots of people at the stations, there could be a bit of a delay before we get on the cable car.
- The tour fee includes transfer from the port to the beach (round trip), with a guide during the coach trip, but not lunch.

CRUISING AMONG ISLANDS AND LAGOONS

Description

We sail the azure waters of Lagoa do Mundaú, admiring beautiful lakeside views, populated by hardworking fishermen, and surrounded by lush mangroves and towering palms, and then enjoy a dip in the blue waters of this fascinating ecosystem.

What we will see

- Massagueira
- Lagoa do Mundaú
- Mangrove forest
- Swim break at the beach

What we will do

- We leave the port by coach in the direction of Massagueira, which is a few kilometres to the south.
- We arrive at the quay where a boat awaits us, to whisk us away on a spectacular cruise over the waters of Lagoa do Mundaú with its marshes, islands and channels.
This lagoon and the adjacent Lagoa Manguaba, to which it is attached, form one of the world’s largest lagoon complexes. We sail among the nine islands that dot the waters, including the beautiful Ilha de Santa Rita, a protected area that boasts incredible biodiversity.

During this peaceful trip, we can admire the large mangrove forest growing on the shore, interrupted by beautiful white sand beaches on which stand willowy palm trees caressed by the wind.

In this environment of rare beauty, we stop to dive into the literally unique ecosystem of the lagoon: swimming in the blue waters of a tropical paradise is an experience not to be missed. And with a little luck we can observe the local fishermen engaged in their daily activities.

We then return to Massagueira quay, where we find our coach to return to the ship.

What we will do
- We leave the port of Cádiz on our coach and head inland towards the amazing city of Seville, capital of Andalusia and a magical place that incarnates the essence of Spain with centuries of history and tradition.
- Once there, we visit the Cathedral, the largest Gothic cathedral in the world: it rises before us with its spectacular spires and towering minaret known as la Giralda, the only remain of the ancient mosque over which the cathedral was built. The church is home to fabulous artistic treasures as well as the tomb of Christopher Columbus.
- Our tour continues with a visit to Barrio de Santa Cruz, which used to be a Jewish neighbourhood in Arab times. The maze of alleyways alternates with squares embellished with flowers and elegant patios.
- We then reach Casa Pilatos, one of the most beautiful private residences in the city combining Moorish, Gothic and Renaissance architectural elements – a wealth of mosaic tiles contrasts with finely decorated white marble.
- We get back on our coach and enjoy a short sightseeing tour of the city to see the squares and monuments that make Seville famous all over the world such as the Torre del Oro, one of the architectural symbols of the city overlooking the river bank.
- As we start feeling peckish, we enjoy a typical Andalusian lunch, an additional way to discover the local culture with a dish of delicious paella or a steaming stew.
- After lunch, we continue with Plaza de España, one of the most spectacular architectural spaces in Seville with its semi-circular shape symbolising Spain's embrace towards its ancient colonies. It is surrounded by the opulent buildings of the Ibero-American Exposition of 1929 reflecting into the sparkling canal.
- After a break to take a few photos, we venture into Parque de María Luisa, which was donated by the Duchess to the city in 1893. A spectacular scenery opens up before us, one where architecture and nature coexist in perfect harmony: cedar trees, elm trees and palm trees reflect themselves into the many ponds, creating an enchanted atmosphere that still pervades us as
we return to the ship.

**ADVENTURE ALONG CAMINITO DEL REY**

**Description**
This tour will allow us to see the city’s sights from our comfortable coach.

**What we will see**

- Desfiladero de los Gaitanes gorge
- Walking tour along Caminito del Rey

**What we will do**

- We leave Malaga behind us and head towards the Desfiladero de los Gaitanes gorge, where, at the beginning of the 20th century, the local hydroelectric company harnessed the two waterfalls to produce electricity.
To facilitate communication and transport, a 3 km walkway only 1 metre wide and rising as high as 100 metres above the river below, pinned on practically vertical walls, was built. And it’s precisely on this narrow structure, restored in 2015, that we will test our courage!

We access the walkway from the northern entrance, with two routes to reach Caminito del Rey. The first starts at the Conde de Guadalhorce dam and winds its way along a pleasant 2.5 km trail as far as the Gaitanejo dam. The second is 1.5 km long and, through a tunnel excavated in the mountain, leads to a forest trail as far as the first control cabin.

Surrounded by rugged nature, we retrace the steps of the workers who first built Caminito del Rey and worked on these steep heights and discover interesting facts about the local flora and fauna as well as curious anecdotes concerning the pioneers.

DISCOVERING GIBRALTAR

Description

At the furthest point of the Iberian peninsula lies Gibraltar, an overseas territory of the United Kingdom, rich in colonial history and natural wonders.

What we will see

- Torremolinos, Fuengirola and Marbella
- Línea de la Concepción
- Baia dei Catalani
- Punta de Europa
- St. Michael’s Cave
- Barbary Monkeys
- Moorish Castle
- Main Street

What we will do

- From Malaga we will head for the tourist resorts of Torremolinos, Fuengirola and Marbella, before reaching the Cadiz province,
where we will visit the Línea de la Concepción, the city that borders Gibraltar.

- Once across the border, we will leave the coach and board a minibus, the ideal way to admire the enchanting views, as described by the audio guide.
- We initially head north, before crossing the border between Spain and England behind Gibraltar airport.
- We continue on to Catalan Bay, or La Caleta, a traditional fishing village that apparently owes its name to the landing of the troops who arrived from Catalonia during the War of the Spanish Succession in the 18th century.
- We are enchanted by Gibraltar that extends all the way to the famous rock, a calcareous stone with reefs that jut out of the sea. Here we find Europa Point, the most southern tip of Gibraltar, where the Mediterranean Sea meets the Atlantic Ocean. If it is a clear day, we can see the African coast and take some beautiful photos.
- We will have chance to visit St. Michael’s Caves, natural caves used as a refuge by Neolithic inhabitants of the Rock, where we will admire the captivating scene created by the many stalagmites and stalactites. Before concluding our tour of Gibraltar, we will get to know the real stars of this land, the Barbary monkeys, the only examples still to be found in the wild today. We find them at the Moorish Castle, a fortress built in 1333. Legend has it that Gibraltar will remain English for as long as the monkeys remain on this land.
- Before returning to the car park and starting our return trip to Malaga port, we’ll have chance to soak up the typical English atmosphere along Main Street, with its many shops and cafes.

MALAGA AND ANDALUSIAN TRADITIONS

Description
We will discover the history, architectural wonders and customs of Andalusia, visiting Malaga’s fortress and experiencing one of the region’s most famous folklore traditions: flamenco.

What we will see

- Gibralfaro: fortress tour
- Stunning views over Malaga
- Wine tasting and flamenco show

What we will do
From the port of Malaga, we will take the coach to the Gibralfaro, the ancient fortress situated on top of the hill that dominates the city. From here we can enjoy a breathtaking view of Malaga, its bays and the surrounding areas.

Then we will head to the centre of Malaga where we will enjoy a pleasant stroll to a typical Andalusian tavern. Here we will sample a glass of fine wine from the region whilst watching a fascinating flamenco show, which will leave us with an unforgettable memory of this city thanks to the sensuality of the dance, the intensity of the song and its unmistakeable rhythm.

A VISIT AROUND MALAGA

Description
Monuments, ancient fortresses, palaces, typical lanes, elegant gardens and tree-lined avenues: a tour to discover Malaga.

What we will see
- Malaga
- Cathedral
- Historic city centre
- Alcazaba
- Gibralfaro

What we will do
- The first stop on our trip takes us to Malaga, a city founded more than two thousand years ago and now one of the oldest ports in the Mediterranean, and the cathedral, one of the most important Renaissance monuments in Andalusia. Dating back to the 16th century, the cathedral was constructed on the site of a former mosque.
- We will then move on to the historic centre of Malaga, where we can admire the beauty of the typical calles.
- Our trip will then take us on to Alcazaba, a fortress from the Muslim era that testifies the Moorish resistance to the Christian
kings. From its ancient peripheral walls we can enjoy an evocative view of the city and its surroundings, including the bay.

- Another beauty spot from which we can enjoy a breath taking view is Gibralfaro, an ancient fortress situated on top of the hill that dominates the city. Constructed in the 14th century by Yusuf 1, Caliph of Granada, in the spot on which the Phoenicians had built a lighthouse, it was, for a long time, the most impregnable fortress on the Iberian peninsula. Here we take a final look at Malaga, its bay and the beautiful surroundings, before beginning our return journey to the ship.

**CITY OF ARTS AND SCIENCE**

**Description**

**What we will see**

Costa Fascinosa - Brazil, Canary Islands, Morocco, Spain, Italy
The Lonja
Central Market
Cathedral, Miguelete
City of Arts and Sciences

What we will do

- We will head off to explore Valencia, currently one of the most densely populated cities in Spain. It is eternally suspended between the past and the future, between tradition and modernity, where Gothic, Baroque and old fishing districts go hand in hand with the futuristic part of the city.
- Our imaginary journey through history will start with a tour of the Lonja, the old silk exchange that has now been declared a UNESCO world heritage site and is one of the most beautiful examples of civic Gothic architecture in Europe.
- Right in front of the Lonja lies the brightly-coloured Central Market where local sellers display their vegetables, spices, fish and the famous Serrano ham every day in an elegant, liberty-style building.
- The cathedral bridges the gap between the centuries perfectly. The original central part of the church dates back to the 13th century but the construction creates the perfect balance of Roman, Gothic and Spanish Baroque styles, topped off with the extremely tall, octagonal Gothic bell tower known as Miguelete as it is dedicated to St. Michael the Archangel.
- The City of Arts and Sciences is a completely unique complex dedicated to science, technology, nature and art. Its most symbolic construction, the Hemisfèric, spans around 13,000 square metres and watches us with its huge scrutinising eye, which has an even more intense effect thanks to the reflection from the water at its base. Inside this futuristic museum, we will find countless pieces of evidence of how art and science, teaching and interactive technology have been able to improve life for humans.
- Dress code that is appropriate for the places of worship to be visited is recommended.
- When the cathedral is being used for religious ceremonies, our tour will be limited to the exterior of the building.
- The Central Market is closed on Sundays and can only be viewed from the outside.
