A TASTE OF FINNISH LIFE: NORDIC WALKING AND SAUNA IN A HISTORIC RESIDENCE

Description
An exciting health and wellness experience: regenerate your body in the stunning setting of a historic 14th-century residence converted into an elegant hotel, with an invigorating walk in the forest in keeping with the philosophy of Nordic walking with an instructor, followed by a relaxing and purifying sauna.

What we will see
- A stop at the beautiful historic residence of Haikko Manor
- Nordic walking with an instructor
- Choose from basic or advanced level
- Traditional sauna in a seaside cottage
- Light refreshment
- Sightseeing tour of Helsinki
- Photo stop at the stunning Senate Square

What we will do
- We arrive at the beautiful historic residence of Haikko Manor, now an elegant hotel that dates back to the 14th century and is surrounded by wonderful grounds with large well-kept lawns and a real forest just behind it.
- During our visit to Haikko Manor, we will have the opportunity to try a sporting activity typical of the northern regions: so-called Nordic walking, which uses special walking sticks to which force must be applied with every step.
- With the help of an instructor, we will choose the level most suitable for us, either basic, within reach of everyone, or advanced, which also includes hillwalking. In both cases, we will breathe in the pure air of the forest deeply and reactivate our body’s energy, immersing ourselves in contact with nature.
- After the walk, we will enjoy a well-deserved relaxing break in a traditional sauna, built inside a pretty cottage just a few steps from the sea, allowing the heat to purify us from toxins and give us a fabulous feeling of relaxation.
- We cannot leave Haikko Manor before having enjoyed a light refreshment: there is no point ignoring our stomachs and all that exercise will no doubt have made us a little peckish!
- Our excursion will end with a sightseeing tour of Helsinki, discovering some of the capital’s most interesting sights.
- We drive along Mannerheimintie, one of the main roads, and admire the Parliament building, setting of many crucial events in the country’s national and political life.
- Before returning to the ship, we make a photo stop in the scenic Senate Square, overlooked by the stunning Lutheran Cathedral, an imposing Neoclassical building completely finished in white marble.
- This excursion includes a guide for every 20 guests.
- We recommend that you book early because only a limited number of places are available.

Helsinki

THE MEDIEVAL VILLAGE OF PORVOO

Description
Providing a real historical flavour, this excursion allows us to compare the past and present of a fascinating city.

What we will see

• Helsinki, city tour of the most well-known monuments
Porvoo, historic quarter and commercial warehouses

What we will do

- After setting off from Helsinki port, we will pass a series of monuments of national historical interest: the Parliament, the National Museum, the new Opera House, the Olympic Stadium, built in 1952, and Finlandia Hall, a unique conference and events centre designed by the famous architect Alvar Aalto, who was also responsible for the church in Riola di Vergato (Bologna) in the 1970s.
- We will admire the beautiful Finnish countryside en route to the ancient town of Porvoo, following a panoramic road along the coast.
- Porvoo is the second oldest town in Finland and is a gem of Finnish architectural history, particularly in the residential area of Old Porvoo, a picturesque neighbourhood built on a hill near the Porvoonjoki River. The houses were built in keeping with medieval ideas about urban planning and represent the harmonious coexistence of old and new. Porvoo’s symbol is its charming red houses built on the river bank; they were once warehouses where goods, products and exotic delicacies from distant lands were kept.
- We will take a stroll through the historic centre, full of shops selling local delicacies and handicrafts. For example, the depots near the former station are home to a shop that is impossible to leave empty handed: gifts, souvenirs, local handicrafts, organic food and cakes, all top-quality, so much so that it is considered by many to be a tourist attraction in its own right!
- We will set off once again for Helsinki, passing through the beautiful countryside.
- The trip to Porvoo will be approximately 1 hour.

HELSINKI CITY TOUR

Description

What we will see

- From Senate Square to Kaivopuisto Park
- Temppeliaukio, the ‘Rock Church’
- Mannerheimintie and all the important buildings that line it: Parliament, National Museum, Finlandia Hall
• Sibelius Park, Passio Musicae

What we will do

• Once we have left the port, we will head towards Senate Square and then on to Market Square and Kaivopuisto Park, the oldest and most famous park in Helsinki that is extremely popular with locals.

• Along the Mannerheimintie, we will visit the Lutheran church of Temppeliaukio, the Rock Church, a modern masterpiece built inside a rocky hill, an unmissable example of rock architecture.

• The Mannerheimintie is rightly considered Helsinki’s main street. Staying on it throughout, we will be able to see: the Parliament, the scene of many crucial moments in the political life of the nation, the National Museum, Finlandia Hall, an important conference centre that plays host to all kinds of events and is well-known for its famous architect Alvar Aalto, and finally the new Opera House.

• Passing the Olympic Stadium, famous for hosting the 1952 Olympics, we will finally reach the controversial Passio Musicae, a monument dedicated to the Finnish composer Jean Sibelius and an abstract structure made of 600 empty steel tubes that resemble organ pipes. The meaning behind this monument is still very much up for discussion among the Finns: there are those who say that the sculptor Eila Hiltunen intended to recall the Northern Lights; others think it looks like ice crystals, some think it is a giant organ, while others find references to Nordic forests in it. It appears that the artist had no particular intention in mind, and, while commemorating the life and works of Sibelius, she also wanted visitors to be able to bring their own meaning to the work.

• Before returning to the ship, we will have some free time for shopping.

**Description**
A relaxing excursion among Helsinki's main monuments and a historic estate passing by a small church dedicated to sailors. **What we will see**
- Sightseeing tour from Helsinki's city centre
- Mannerheimintie, Parliament, Olympic Stadium and Market Square
- Tasting session with typical local products
- Rural church of St. Sigfrid

World War, and finally “Kauppatori”, the famous market square.

- Afterwards, we leave the city and head to the Savijärvi estate approximately 30 km from Helsinki and unchanged for the past 100 years. There, we will discover part of this extremely famous museum where over three million works of art have been preserved including Egyptian, Babylonian, Assyrian, Chinese and Indian archaeological artefacts as well as priceless paintings and memorable pieces from the Russian imperial court.

We will reach the highlight of our day when we cross the threshold to the Diamond Room in the Hermitage Museum. Named the Treasure Gallery during Catherine the Great’s reign and recently renovated, the room holds a unique collection of jewels created by Russian, European and Asian artists, collected by the emperors for over two centuries. We will be entranced by exquisite pieces like the famous gold of the Scythians and the Greeks, the abundance of royal gifts and the fabulous collection of jewels from Western Europe created by the most renowned artisans of that time.

A MORNING AT YUSUPOV PALACE PLUS CANAL CRUISE

Description
A visit to a historical building steeped in charm and dark secrets, the symbol of one of the most important noble families in Russia, and finally, a cruise along the crystal-clear canals of St. Petersburg.

What we will see
- Tour of Yusupov Palace
- Cruise along St. Petersburg’s canals

What we will do
- We will leave the port and head to Yusupov Palace, a pivotal landmark in Russian history in the 18th and 19th centuries. This palace’s history is inextricably linked to St. Petersburg and it was also the destination of many different famous Russians over the years. It was in this very residence belonging to the aristocratic Yusupov family that Rasputin was killed in 1916 in a masterful power play.
- The palace interior has been carefully restored and is partially used as a cultural centre for teachers. We will admire the ceremony rooms, the halls and the Yusupov princes’ private theatre which is one of a kind.
- We will embark on a cruise along the canals that cut through the city for 300 km. That is how we will spend the next hour, passing the wonderful palaces overlooking the river and sailing beneath picturesque bridges. Whilst the coloured domes and fairy-tale buildings bewitch us with their reflections twinkling on the water, our guide will tell us stories and legends about the noble families that once owned the buildings on the riverbank.

CANAL CRUISE BY EVENING

Description
A wonderful cruise along the canals and rivers of St. Petersburg, known as the 'Venice of the North', discovering its history and splendour in a magical, fairy-tale setting.

What we will see
- Rivers and canals of St. Petersburg
- A glimpse of the most significant monuments

What we will do
- We will set off on our cruise of the city’s rivers and canals to avoid the rush-hour traffic and we will admire the most significant monuments from a privileged viewpoint. The canals actually help to create a unique atmosphere as they reflect the city's golden domes and fairy-tale buildings.
- Known across the world as the 'Venice of the North' because of its geographic, structural and architectural resemblance to the magnificent Italian city on the lagoon, St. Petersburg is the most important port in Russia and is one of Europe's main cultural hubs. The city was built over 42 islands and was developed around a complex network and canals and rivers (69 in total) stretching 300 km. These canals also mark the borders of the different districts. St. Petersburg's classic low-rise architecture often allows the incredible city views to be enjoyed from the water.
- Sailing along the water, we will learn about the history of thriving imperial Russia, when St. Petersburg was the capital, and admire the various buildings, monuments and architectural styles that typify the different periods.

Description
An emotional walk at the heart of St. Petersburg, admiring cathedrals, monuments and buildings in an atmosphere soaked with centuries of history, whilst appreciating the design and details of the famous metropolitan city, boasting a kaleidoscope of colour and materials.

What we will see
- Saint Isaac's Cathedral and The Bronze Horseman
- Walk along the Marina Arsenal
- Palace Square and Nevsky thoroughfare
- Metropolitan of St. Petersburg

What we will do
- We will begin our tour hopping on-board the coach in the city centre: we will pass in front of Saint Isaac's Cathedral, boasting a Neoclassical style and a 21.8 metre gold dome making it the tallest cathedral in the world, and the Bronze Horseman, a monument dedicated to Peter the Great, standing at 6 metres and resting on an enormous granite monolithic stone. The square surrounding the monument (Senate Square, also known as Decembrist Square) is a favourite spot amongst couples getting married to take photos.
- From here, we will set off on our walk along the Marina Arsenal and, from the area opposite the Neva River, we can admire the State University (founded in 1724 upon the order of Tsar Peter the Great of Russia, and one of the oldest and most prestigious universities in Russia), the Academy of Sciences and the House of Art, also known as the ‘House of inquisitiveness’, a name preferred by Peter the Great to describe his collection of anatomical preparations and scientific instruments.
- We will continue our tour with a visit to Palace Square (one of St. Petersburg’s main squares and theatre in 1917 at the end of the Russian Revolution) and walk along Nevsky thoroughfare St. Petersburg’s main road, which is 4 km long, which crosses the city from the Admirality to the Alexander Nevski monastery, the heart of the shopping area and is flanked by elegant buildings, amongst which the Winter Palace. From here, we will arrive at the Gostiny Dvor metro station.
- The last stage on our tour includes an unmissable tour of the famous metropolitan of St. Petersburg, also called ‘metro’ in Russian. Initial plans overseeing the creation of the metro date back to 1899, but were not implemented owing to the Russian Revolution of 1917 and the outbreak of the Second World War. In 1941, when works began, the then USSR was due to join the war and works were suspended, and resumed at the end of the conflict. The first line opened on the 15 November 1955 and linked up the city’s 5 railway stations. From the moment it was opened, it was acclaimed as one of the best in the world, not only owing to efficiency and cleanliness, but also for its architecture. It is presently one of the fastest, safest and most comfortable modes of transport in the world. Most stations are equipped with lifts; the older stations have been richly decorated with coloured granite, various colour marble, stainless steel, bronze, aluminium, synthetic materials, glass, various mosaics, bas reliefs and sculptures, whilst newer stations boast a modern and simple design, which are however just as
striking. Every station is unique in this sense. The metropolitan of St. Petersburg is also one of the deepest in the world, with some stations excavated at more than 100 metres deep.

**CATHERINE PALACE AND NEVA RIVER CRUISE**

**Description**

We will enter Empress Catherine's iconic building with its stunning Amber Room, and sail the placid waters of St. Petersburg’s river.
passing an array of historical buildings.

**What we will see**

- Guided visit of Catherine Palace and the Amber Room
- Neva river cruise
- Free time

**What we will do**

- We will set off towards Pushkin, a town known in the past as Tsarskoe Selo (Tsar’s Village), where the wonderful Catherine Palace awaits us. Commissioned by Peter the Great for his wife Catherine in 1710, this estate was used as the imperial family's summer residence until the period of the last Tsar.
- Inside the palace, we will be amazed by the rooms and galleries decorated with period furniture, candelabra and paintings. Most striking of all is the famous Amber Room, once considered the eighth wonder of the world, with walls covered entirely in amber panels with gold leaf decorations and mirrors. Plundered by the Nazis during the Second World War, it was rebuilt piece by piece in 2003 by expert Russian artisans. We will end our visit to the palace with a walk in its well-kept gardens.
- Our tour will continue with a cruise along the Neva river. St. Petersburg is often called ‘the Venice of the North’ as the city was developed over 42 islands and more than 62 small streams and canals cross it in all directions.
- Whilst on board our boat and the coloured domes and fairy-tale buildings bewitch us with their reflections twinkling on the water, our guide will tell us stories and legends about the noble families that once owned the buildings on the riverbank.
- We will pass the granite walls of the Peter and Paul Fortress and the golden spires of the majestic Saint Peter and Paul Cathedral, whilst, in the distance, we can make out the onion domes of Smolny Cathedral. The memory of the fabulous views that appear before our eyes at every turn along the river will keep our minds occupied whilst we return to the ship.

**Description**

A journey back in time on the footsteps of Estonia’s Soviet heritage in the company of a unique guide who will re-enact period events, illustrate exhilarating anecdotes about everyday life in the USSR and make this experience realistic and evocative.
What we will see

- Meeting with our guide at the port: “comrade” Jerjomin
- Soviet-style welcome
- Tour of the city on an authentic Soviet coach
- Stop at the Suur Tõll icebreaker
- View over the Soviet prison and stories about life in the USSR
- Tallinn city centre
- Maarjamäe memorial

What we will do

- Once off the ship, we are welcomed by comrade Jerjomin from the Soviet militia or by his assistant with the typical attitude of frontier soldiers in charge of disembarcations.
- Fully identified with his role, he shows us with great realism how tourists were treated in the USSR – everyone had to queue for passport checks, was scrutinized with a frown and was subjected to a myriad of overly-suspicious questions.
- We board an authentic Soviet coach taking us back in time as our guide Jerjomin clears his throat with a gulp of vodka and a few pickles!
- We stop by the Suur Tõll Icebreaker anchored in the port and now a museum. From here, we can observe the outline of the old Soviet prison bearing unsettling memories of the regime. Jerjomin cheers up the atmosphere with some fun anecdotes about everyday life in Soviet times with episodes taken from his personal experience as well as interesting considerations on Estonia’s USSR heritage.
- Once back on our coach, we cross the historic city centre of Tallinn, which preserves its Medieval charm intact, thanks also to a skilful restoration of its architectural gems.
- We reach the Maarjamäe Memorial which started out as a German war cemetery and was then turned by the Soviets into a memorial for those killed during the Second World War.
- As we look around, we enjoy a Soviet snack on our coach – Jerjomin offers us a slice of cake and a typical local beverage that reminds him of his youth.
- On the way back, our fun guide teaches us old Soviet songs and a few words in Estonian before bidding us farewell when we reach the port.
- Minimum age: 4 years.
- The coach is a period vehicle on which we are served a Soviet snack.

A FAMILY TOUR: JUNIBACKEN OR SKANSEN?

Description

We have the opportunity to spend an afternoon with the entire family: visit Junibacken, where characters from famous tales such as Pippi Longstocking are brought back to life, or the open-air Skansen museum, where adults and children alike can discover how people lived centuries ago.

What we will see

- Junibacken cultural centre
- Fairy-tale train and house of Pippi Longstocking
- Open-air Skansen museum
- Small zoo and activities for children
What we will do

- We leave the port on our coach and reach the two most popular family attractions in Stockholm: Junibacken and the open-air Skansen museum. We have two and a half hours to enjoy the attraction we prefer!

- At Junibacken, we enter a fairy-tale world inspired by the stories written by Astrid Lindgren, who invented extraordinary characters such as Pippi Longstocking.

- Right at the entrance, we find ourselves in Fairy-tale Square surrounded by old street lights and inhabited by characters popular with children. We get on board the fairy-tale train, which takes us on an extraordinary journey through the tales written by Astrid Lingdren and experience the emotions she can provoke: laughter and tears, amusement and fear.

- We enter a perfect recreation of Pippi Longstocking's house: we can play in her kitchen, go upstairs to see her bedroom or take a photo with her white horse with black polka-dots.

- Before leaving this enchanted place, we have some free time available to take a peek at the largest children's bookshop in Sweden or go to the café, decorated in the rustic style of days gone by and offering lovely views of the sea.

- Alternatively, we can choose the open-air Skansen museum, the first-ever of its kind with houses and farms from all over the country reproducing a miniature-version of Sweden and illustrating life and working conditions of the past.

- The museum is also has a small zoo with wild animals from Nordic regions such as wolves, elks, seals and otters, in addition to numerous local species of historical interest part of protection plans.

- The museum is very interesting for adults and fun for children: in Skansen, everything is designed for children, who can ride a pony, discover games of the past, watch the animals and make friends with them or become involved in everyday farm activities.

HIGHLIGHTS OF STOCKHOLM TO THE RHYTHM OF ABBA

Description

An exceptional and original tour of Stockholm to the sound of unforgettable hits. Over 380 million records sold worldwide, the timeless symbol of international pop music and a true Scandinavian record! In the only Museum in the world dedicated to iconic pop group ABBA, we retrace their rise to fame and we become the absolute protagonists of the day as we dance and sing like true pop
What we will see

- Sightseeing tour of Stockholm and significant places for ABBA
- Fjällgatan (photo stop)
- City Hall (external visit)
- Gamla Stan and free time
- ABBA Museum: visit and live “performance”

What we will do

- We start off our excursion with a sightseeing tour of Stockholm by coach to admire a few of the main sights.
- During the tour, our guide points out the most interesting significant locations of the history of ABBA and tells us a few interesting facts on Sweden’s most famous band.
- We stop at Fjällgatan, a spectacular viewpoint from where we can enjoy a superb view of the city.
- The next stop on our tour is the imposing City Hall, the city’s political centre and the location for the annual celebrations that follow the presentation of the Nobel Prizes. We admire its imposing exterior, surrounded by water and surmounted by three golden crowns, the symbol of the kingdom of Sweden, and we are enchanted by its amazing garden.
- The tour continues with a pleasant guided walking tour across the heart of the city, its ancient centre, named Gamla Stan, which began to take shape in the 13th Century and remained the primary centre of activities up until the 19th Century; here, in an atmosphere soaked in history, we walk along the winding roads, alongside which characteristic Medieval buildings, stand.
- We reach the magnificent island of Djurgården, a former royal hunting reserve that is now an idyllic place for wonderful walks with many museums just a stone’s throw from the city centre. It is also the location of the main destination of our tour: the ABBA museum, dedicated to the legendary platform boot and sequin jumpsuit-wearing band that revolutionised pop music between 1972 and 1983.
- The museum displays objects and peculiarities such as stage clothes in a modern interactive exhibition with footage from their shows and interviews with the four band members. The ticket given at the entrance generates a page on the museum website where we can download our live performance: we become pop stars for a day in a booth where we can dance and sing “wearing” a digital costume!

#COSTAGRAMMER TOUR AT STOCKHOLM

Description
We pick up our cameras as real influencers to capture the essence of Stockholm. An innovative stimulating excursion for those who love to share their emotions with their dear ones and, why not, be the envy of followers!

Become a true #costagrammer: upload your best shots using the #costagrammer hashtag and don’t forget to tag our official Instagram costacruisesofficial.

What we will see
- The island of Skeppsholmen
- The old city: Stortorget and Stock Exchange Building, Mårten Trotzigs gränd
- Fjällgatan

What we will do
- We take out our cameras ready to capture the spirit of Stockholm and create a true social photo feature.

- Our excursion begins with a sightseeing tour of the city starting with the magnificent island of Djurgården, a former royal hunting reserve that is now an idyllic place for wonderful walks with many museums just a stone’s throw from the city centre.

- Our first stop is the island of Skeppsholmen, from where we can admire the city skyline – an unmissable occasion to capture this breathtaking scenery on camera!

- We continue towards the centre and go on a guided walking tour of the old city – or Gamla Stan – between picturesque squares and characteristic cobbled alleyways winding between ancient and elegant buildings with Baroque doors. We cross Stortorget, the centre’s main square around which the city grew in the 1300s. It is home to the Stock Exchange Building, the headquarters of the Nobel Museum and the Swedish Academy, among others. We take a peek at the narrowest alleyway in Stockholm called Mårten Trotzigs gränd, which climbs up with 36 steps that are only 90 centimetres wide, and continue with a little free time around the old city, that offers us endless photo opportunities: will we manage to capture all its charm in a single picture?

- We then enjoy a coach sightseeing tour through the Diplomatstaden residential district, characterised by luxurious villas, embassies and homes surrounded by greenery, and the elegant Östermalm quarter.

- Our last stop is Fjällgatan, one of the most characteristic streets in Stockholm lined by old wooden houses and lapped by the waters of Lake Mälaren, beyond which we can admire (and obviously take a picture of) a magnificent panoramic view of the city.

- Our excursion has come to an end: we return to our ship ready to post all the emotions we have enjoyed, which will be forever etched in our memories and available on our photo gallery.

- Riddarholmen church and old parliament
- Tour of the palace roof
- Walk around the city centre

- We admire the amazing façade and elaborate structure of the majestic Riddarholmen church, once burial ground of the Swedish monarchs, and stop at the old parliament building where the national assembly met until 1905 and where our adventure begins.
- We take the lift and climb up to the seventh floor, where we are given safety harnesses and helmets: we get on the roof 43 metres above ground and see Stockholm spreading out before our eyes.
- Our guide tells us interesting information on the history of Stockholm as, safely hooked to steel cables running along walkways, we walk around the chimneys of the large palace surrounded by spectacular views of the city impossible to enjoy elsewhere. A truly unique emotion!
We get down and go on a guided walking tour of the old city or Gamla Stan between picturesque squares and characteristic cobbled alleyways winding between ancient and elegant buildings with Baroque doors.

We find ourselves in front of the imposing Royal Palace, an amazing example of Baroque architecture and official residence of the Swedish monarchs.

**ROYAL PALACE AND OLD TOWN**

**Description**

A fascinating itinerary introducing us to the oldest district in Stockholm where the original city began to take shape in the 13th century. We'll walk along its narrow streets lined with magnificent historic residences and visit what is without doubt the area’s most important building: the Royal Palace.

**What we will see**

- Gamla Stan
- Royal Palace
- Storkyrkan (external visit)
- Stortorget
- Stock Exchange Building

**What we will do**

- Our tour takes us to the historic centre of the magnificent Scandinavian capital, Gamla Stan or Old City. We’ll be fascinated by the characteristic little streets and delightful cobbled squares of the Stockholm residents’ preferred location for meeting, eating out, shopping or simply taking a walk.
At the end of one of these narrow streets we can see the enormous, imposing Royal Palace, built in the 18th century on the same site as the 13th century Vasa fortress which was destroyed by fire in 1697. The current complex, the official residence of the Swedish monarchy, is made up of a series of robust stone buildings in baroque style comprising over 600 rooms.

Our tour allows us to access the Palace and visit the Apartments with their magnificent baroque and rococo interiors, fully admiring this highly important historical and cultural monument, one of the most fascinating royal palaces in Europe.

At the end of the visit to the Royal Palace an enjoyable tour of the Old Town awaits. Walking through its typical narrow streets, we’ll breathe in the bohemian atmosphere, admiring the characteristic residences dating back to the 15th and 16th centuries, adorned with baroque gateways and old heraldic shields. We'll also take the opportunity to shop in the numerous boutiques, galleries, antiques shops and craftsmen’s workshops.

Unmissable sights include the oldest church in Gamla Stan, the cathedral known as Storkyrkan or Big Church, near the Royal Palace. The church has always been the site of major events in Swedish history, such as coronations and royal weddings and funerals.

Behind it is the main square of the Old City, Stortorget, or Large Square, around which the city developed in the 1300s. Among others, it is home to the Stock Exchange Building, the headquarters of the Nobel Museum and the Swedish Academy.
